

The Venice Golf & Country Club Master Association was named “2006 Community Association of the Year for the West Coast of Florida” in the large community category. A large part of this accomplishment is due to the commitment ArtisTree provides on a daily basis to our community. ArtisTree supplies a high level of service, quality, integrity and dedication that begins with the owners and continues with their team of personnel from management all the way to laborers. They are truly unmatched in the industry!

Another one of their great assets is being able to contact a person, not a machine or recording. ArtisTree’s turn around time is typically same day, but always within 24 hours. For emergency situations, they are immediate.

We are currently working on a three-year landscape project for our community. Many bids are received but ArtisTree has been selected year after year due to their first class representatives, materials, guarantee, workmanship, and their competitive pricing.

Our residents are proud of their community. ArtisTree’s commitment is seen and heard from friends, family or anyone visiting the VG&CC. Comments are continual on the beauty and condition of our prestigious community. Our owners, boards, committees, staff and ArtisTree make that happen!
